Sources of Authority

### 2. SCOPE

### 3. DEFINITIONS

- **Behaviour management:** is a process to help create teaching and learning communities where all members of the school community feel secure from harassment, aggression, violence and bullying. It is a culture and a philosophy underpinning all that happens in the school (National Safe Schools Framework).
- **Healthy and respectful relationships:** Pope Francis says in AMORIS LAETITIA, as an essential requirement of love, “every human being is bound to live agreeably with those around him”. Modelling healthy and respectful relationships creates an engaging, safe and supportive environment. It also equips children and young people with the understanding of how they should be treated.

Healthy relationships are often referred to as being ‘respectful relationships’ or ‘ethical relationships’, or even a ‘good relationship’. No matter what type of relationship it is, a respectful relationship typically exhibits characteristics of:

- Respect: Mutual feelings of regard; sense of feeling affirmed and safe
  - Communication: Active listening, hearing and being heard; understanding; being able to say no
  - Trust: Feeling trust and being trusted
  - Equality: Freely making your own choices
- **Restorative Practice:** The strategies and actions of repairing a relationship to foster remorse and model forgiveness between peers, teachers and families to maintain the students’ sense of belonging in the community
  - **School Ready:** *May be referred to as ‘learning ready’ and/or ‘play ready’*  
In addition to some academic basics, school readiness skills include self-care, attention and concentration, physical skills, emotional regulation, language skills and play and social skills.
